INNOVATIVE AND SUSTAINABLE SOLUTION FOR E-COMMERCE

Like E-Com1 and E-Com2 solutions, packaging produced by the E-Com3 is biodegradable and has a shipping and return feature, which allows for reliable use and reuse. The square bottom and parallelepiped shape of the bag offers large packaging applications for many markets.

FULFILLMENT CENTER READY

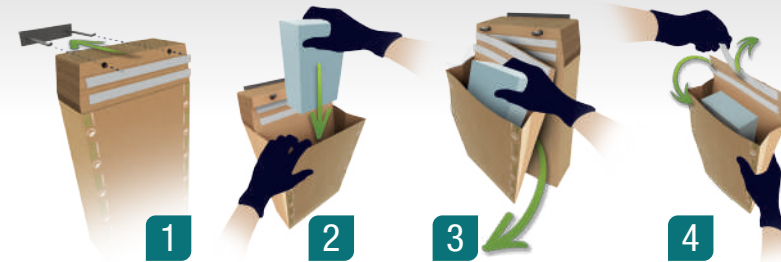

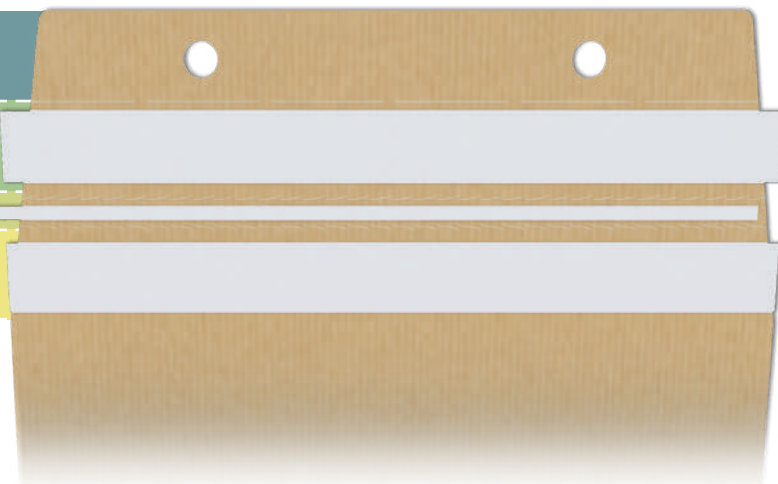

In addition to end customer easy opening functions, the multifunction flap of our packaging is Fulfillment Center Ready and allows simple and fluid filling for order preparation teams:

Hanging stub with 2 wicket holes and easy to release pre-cut

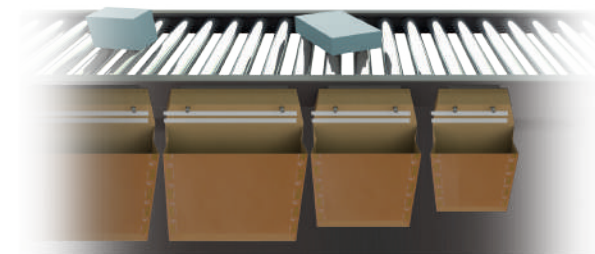

Ship closing part with shifted liner (easy peeling)

NEW! Opening paper tear tape (plastic free)

Returning closing part with liner

- 1- Put the bags on the hanging stub using the wicket holes
- 2- Put an item into the mailer bag
- 3- Easily release the bag from the hanging stubs
- 4- Close the bag with the first release strip

FRUSTRATION-FREE E-COM PACKAGING

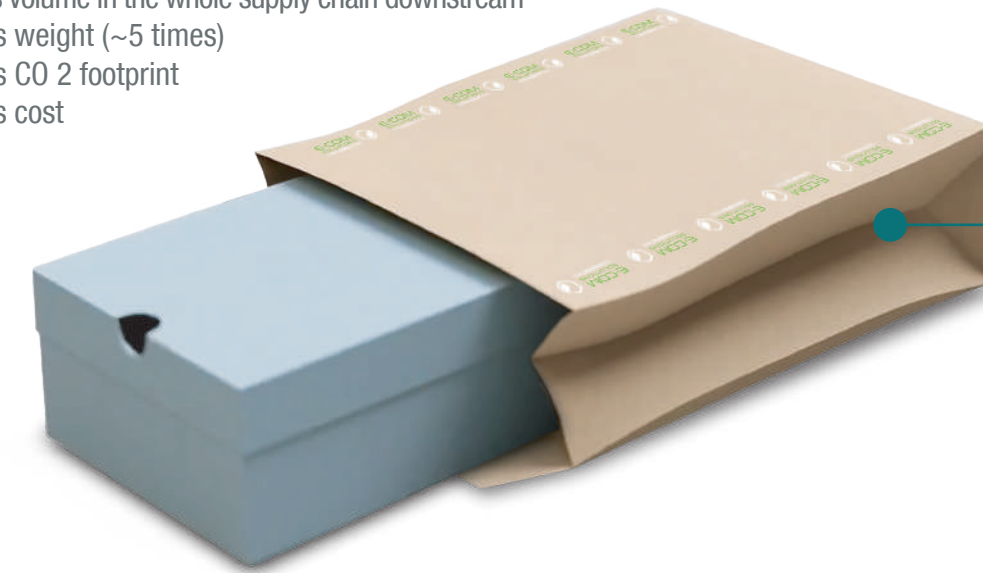

The "Ship & Return" bag has a unique gusset feature that provides the flexibility one needs to send out a variety of goods purchased online. In addition to this unique feature, the E-Com3 bag also has a two-seal system that makes sending and returning goods easy and reliable.

ALTERNATIVE TO CORRUGATED BOX

Paper E-Com solutions is a good alternative to avoid double boxes overpack. Compared to corrugated boxes using, paper packaging offers also :

- Less volume in the whole supply chain downstream
- Less weight (~5 times)
- Less CO 2 footprint
- Less cost

LARGE APPLICATION FOR MANY MARKETS

The shape of E-Com 3 packaging solution allow to be used for many applications in the different E-Commerce markets : electronic devices, shoes and fashion, books, beauty and care, toy & games and more...
