## INNOVATIVE AND SUSTAINABLE SOLUTION FOR E-COMMERCE

Like E-Com 1 solutions, packaging produced by the E-Com 2, is biodegradable and has a shipping and return feature, which allows for reliable use and reuse. It also offers padding possibilities and a refined product finish for large application possibilities.

### GREAT VERSATILITY FOR MANY PACKAGING SOLUTIONS

The E-Com2 lines offer various bags possibilities, dedicated to the E-commerce market, particularly the possibility of producing padded or non-padded paper envelopes. They are therefore a wide range of applications for your packaging solutions, with multiple options for shipping fragile objects, always offering optimal protection for the contents.
